Search Page Updates in Peopletools 8.60

The general look and feel of the PeopleSoft delivered Search page has changed. One change to highlight is the search results will only return the first 10 results, instead of the 100 results in the previous PeopleTools version. By limiting the search results to 10, it improves the search performance for the page.

The features outlined below are available on all search pages in Peopletools 8.60. The update allows for users to have now have options to choose from recent searches or saved searches:

Find an Existing Value Search Criteria Enter any information you have	and click Search. Leave fields blank for a list o	f all values.			
Recent Searches Cha	oose from recent searches	v //	☐ Saved Searches	Choose from saved searches	 ✓
ID Campus ID Local Campus ID National ID Last Name First Name	begins with v Show fewer options Case Sensitive Search				

Choose from recent searches by clicking the dropdown:

Recent Searches	Search
	ID:9000
Campi Local Campi	Last Name:TESTRAM
Nation Last N	Last Name:TEST

Highlight and click the row you'd like to use from your recent search list to populate the values on the search page:

🕙 Recent Searches	Search
	ID:9000
Campi	Last Name:TESTRAM
Local Campi Nation	Last Name:TEST
Last N	

Choose the Search button to execute the search:

Recent Searches Last Name: TEST
